

Call for Funding Applications Workshops/Conferences

INSIGHTS aims to support and promote the communication of research and to contribute to its transfer to the public. One major pillar of transfer activities through INSIGHTS are conferences and topical workshops organized by doctoral students, research associates and faculty of the Berlin School of Economics.

A variety of exchange formats ranging from small workshops to larger conferences can be supported, as long as they have both a research and a policy component. Junior and senior researchers as well as policymakers and stakeholders are encouraged to propose workshops and to apply for funding to organize the events. Collaboration of junior and senior persons in organizing the events is encouraged.

Applications must be made using the attached application form, and a preliminary cost calculation must be supplied using the attached Excel sheet. Please note when calculating the costs that only real costs will be paid out and reimbursed in line with Berlin and the applicable federal regulations (BRKG). No lump sums will be given out. Applications will be reviewed on a rolling basis.

Please send your applications and supporting documents to Claudia Nentwich (INSIGHTSoffice@wzb.eu). We look forward to receiving your applications.

Peter Haan, Dorothea Kübler and Alexandra Spitz-Oener
